DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 21 is rejected under 35 U.S.C. 103(a) as being unpatentable over Yoshiaki (JP 63-297949) in view of Redmond (U.S. Patent Number 4,246,753).

Yoshiaki disclose a recovering method/apparatus for surplus energy in air conditioning equipment utilizing heat accumulating tank. Referring to the figure, the apparatus comprises a heat accumulating tank 1, cooling equipment with evaporator 2, condenser 3 and cooling tower 4, a pump 7, heat source 9 and generator 13. However, Yoshiaki does not explicitly disclose the detail of generator assembly. Redmond discloses waterwheel and inverter in the assembly in the same field of endeavor for the purpose of generating electricity. The teaching of Redmond is the conversion of energy. The utilization of falling energy of groundwater is not part of teaching of Redmond. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the apparatus of Yoshiaki with a waterwheel and inverter in view of Redmond so as to generate electricity. In regarding to the arrangement of using commercial electricity or waterwheel-generated electricity, it is a user's choice to select the electricity.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 21-24 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 8 and 9 of U.S. Patent No. 6,698,223 in view of Yoshiaki (JP 63-297949). Claims 21-24 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 8 and 9 of U.S. Patent No. 6,698,223 and the teaching of Yoshiaki. Although the conflicting claims are not identical, they are not patentably distinct from each other because the '223 patent comprises the claimed limitations and an expansion tank. Yoshiaki does not disclose a motor for driving the water pump.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 3744

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
